GREAT IMPROVEMENT IN DENTIS-
TRY.
The attention of the public is called to a great
discovery in Dentistry.

THE GREATEST ADVANCE STEP EVER
MADE IN THE ART.
The main difficulty in wearing artificial teeth is,
they do not hold in their place firmly enough,
and add to this the annoyance of food getting
under the plate while eating. I have discover-
ed a method of so constructing the plate on
which the teeth are set that they will not start
or drop while eating or speaking, neither will
any particles of food get under the plate, no
matter what the condition of the mouth is,
which is not true of any method hitherto used.

I have secured Letters Patent for the United
States, England and France.
The improvement is not in material, but in the
construction, which cures the atmospheric
leak on the entire plate.

I have sold the exclusive of said improvement
to Dr. L. Gilman, to wit, the Counties of Frank-
lin, Washington, Chittenden, Lamoille and
Grand Isle. Those wishing to avail themselves
of such improvement, will call on

Dr. L. GILMAN.
